PROFESSIONAL SUMMARY

Full Stack Developer with production internship experience building and shipping real applications across frontend and backend. Developed production-grade systems at Visiomatix Media using React.js, Node.js, TypeScript, PostgreSQL and Prisma ORM — including authentication systems, inventory management and business modules. Built and deployed AI-powered platforms with Groq API, a real-time booking system with Stripe and Inngest, and a voice-based AI interview platform.

EDUCATION

Full-Stack Web Development

Masai School

Aug 2024 – Jul 2025

B.E. in Mechatronics Engineering

Marathwada Mitramandal's Institute of Technology

Nov 2020 – Jul 2024

EXPERIENCE

Full Stack Developer Intern (Remote)

Visiomatix Media Pvt. Ltd.

Apr 2026 – Present

- Built and shipped production frontend features using React.js including reusable component library, interactive UI modules and responsive layouts translated from Figma designs
- Architected backend for a Kirana Management Application using Node.js, Express.js, TypeScript, PostgreSQL and Prisma ORM with full database schema design and relational modelling
- Designed multi-method authentication supporting Email OTP via Nodemailer and Google Sign-In via Firebase Authentication with secure session management and protected routes
- Built 15+ RESTful APIs across inventory management, stock operations and a Khata credit ledger module covering customer transactions, balances and payment records

Zoho CRM Developer (Freelance)

Goatourtravel

Oct 2025 – Nov 2025

- Designed Blueprints, workflow automation and business process rules, significantly reducing manual operational overhead for the client
- Developed Deluge scripts for automated data operations, field validations and third-party integrations, improving CRM data accuracy across modules
- Delivered tailored CRM customization within a 2-month engagement covering requirement gathering, module configuration and end-to-end solution delivery

PROJECTS

PrepMate AI — Full Stack AI Mock Interview Platform

React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer, Web Speech API

2025

- Built a voice-based AI mock interview system with resume-aware question generation across technical, behavioral and HR categories using real-time speech recognition and synthesis
- Developed a performance analytics engine with strengths and improvement tracking, personalized resource recommendations and curated interview prep sets
- Implemented JWT authentication with email OTP verification, protected routes, a notifications system and a dashboard tracking interview history and score growth
- **Live:** <https://prepmate-omega.vercel.app> **GitHub:** <https://github.com/sahilnikalje/prepmate>

SkillBridge AI — AI-Powered Interview Prep Platform

React, Node.js, Express.js, MongoDB, Groq API (LLaMA 3.3 70B), SCSS

2025

- Upload a resume and paste a job description — Groq API generates a match score, tailored interview Q&A, skill gap analysis and a prep roadmap in under 10 seconds
- JWT authentication with token blacklisting for stateless secure sessions; modular REST APIs with feature-scoped SCSS frontend and Context API for global state management
- **Live:** <https://skillbridge-ai-1-ku8j.onrender.com> **GitHub:** <https://github.com/sahilnikalje/skillbridge-ai>

BookNWatch — Real-Time Movie Ticket Booking Platform

React, Node.js, Express.js, MongoDB, Stripe, Clerk, Inngest, Nodemailer

2025

- Server-side seat locking prevents concurrent double-booking; Inngest background jobs auto-cancel unconfirmed bookings after 10 minutes and restore seat availability
- Stripe webhook-based payment confirmation, Clerk authentication, automated transactional emails and a role-gated admin panel for full platform management
- **Live:** <https://book-n-watch-mu.vercel.app> **GitHub:** <https://github.com/sahilnikalje/BookNWatch>

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript
Frontend:	React.js, Next.js, Redux, Tailwind CSS, SCSS, Context API, Vite, Responsive Design
Backend:	Node.js, Express.js, REST API Design, MongoDB, PostgreSQL, Prisma ORM
Auth & Payments:	JWT, Firebase Authentication, Clerk, Stripe, Token Blacklisting, Nodemailer
AI & Automation:	Groq API, OpenAI API, Inngest, Web Speech API
Tools:	Git, GitHub, Postman, Vercel, Render, Netlify, VS Code
